

# Black Sabbath, Dirty Women

The neon lights are shining on me again  
I walk the lonely streets in search of a friend  
I need a lady to help me to get through the night, through the night  
If I could find one then everything would be alright  
The sleepy city is dreaming the night time away  
Out on the street I watch tomorrow becoming today  
I see a man, he's got take away women for sale, yes for sale  
Guess that's the answer, 'cause take away women don't fail  
Oh dirty women, they don't mess around  
Oh dirty women, they don't mess around  
You've got me coming, You've got me going around  
Oh dirty women, they don't mess around  
Walking the streets I wonder will it ever happen  
Gotta be good 'cause then everything will be OK  
If I could score tonight then I will end up happy  
A woman for sale is gonna help me save my day...
