

Blind Channel, WHERE'S THE EXIT

Have you had enough? (Yeah!)
Have you had enough? (Yeah!)
Have you had enough? (Yeah!)
Someone tell me where's the-

Hyp hypnosis
Every motherfucker knows this
Doctors orders, double dosage
You're starting to notice I'm a blowfish
Everybody get a little closer
It's time for a mass psychosis
I'll be your host, it's
Hocus pocus
Now you're out of focus
Welcome back to the freakshow
Exit emotions when the beat goes

This life is what you fake it
Please someone tell me where's the exit

This life is what you fake it
And everybody has a deathwish
True love is made of hatred
Please someone tell me where's the exit
Someone tell me where's the exit

I've been making enemies out of rockstars
All those friends with benefits out of popstars
Pullin' up fast and loud just like a cop car
Before I make a mess

Please someone tell me where's the exit

This life is what you fake it
And everybody has a deathwish
True love is made of hatred
Please someone tell me where's the exit
Please someone tell me where's the exit
True love is made of hatred
Please someone tell me where's the exit

Get the fuck up right now (everybody)
Get the fuck up right now (everybody)
Get the fuck up right now (everybody)
Get the fuck up right now

Have you had enough? (Yeah!)
Have you had enough? (Yeah!)
Have you had enough? (Yeah!)
Someone tell me where's the exit
Have you had enough? (Yeah!)
Have you had enough? (Yeah!)
Have you had enough? (Yeah!)
Someone tell me where's the exit
