

# Bloc Party, The Love Within

Lord, give me grace and dancing feet  
As I conquer all anxiety  
The angel told me not to fear  
The power travel in me  
For I have learnt the way to pray  
Like a missile growing tall now  
Wind the past into a knot  
And let the love consume us  
Let the love consume us  
Let the love consume us

Can you hear the stars now sing  
Resounding in D major?  
As the good vibration resonates  
And pulls us up towards her  
Take your shoes off, feel the Earth  
Beneath your feet, respond to touch  
And let our laugh now ring forth  
As the love consumes us

The love within is moving upwards  
Sweeter than any drug  
The melody is taking over  
Guide my hand through this path  
Pull back the veil  
Let your eyes meet this world  
The love within is moving upwards  
So don't you want to get high?  
Don't you want to get high?

Don't you want to get high?  
Don't you want to get-  
Don't you want to get high?

The love within is moving upwards  
Sweeter than any drug  
The melody is taking over  
Guide my hand through this path  
Pull back the veil  
Let your eyes meet this world  
The love within is moving upwards  
So don't you want to get high?  
Don't you want to get high?
