Blur, Black Book

Put away my black book Throw it on the fire Getting out the side door You are my one desire Baby when you hold me I feel see you're everything Baby when you touch me I need nothing no more Put away my black book Put in on the fire Don't give up on me Lord Take my spirit higher Nothing can behold me Don't put me on the fire Baby when you hold me I will see no fear Baby when you touch me You see it in my eyes Put away my black book Put it on the fire I've made up my mind I got nothing to hide I've made up my mind I got nothing to hide Give me my soul [x7] Give you my soul Give me my soul Give you my soul [x10] Give you... Give you my soul [x4] [sang by London Community Gospel Choir]
