Blur, Come Together

I don't understand You're walking over me All over me,to you Well you must be mad And you know you are You should have known I'd do anything for you

[chorus] So why,why Can't we come together?why

Inside my head It's all been taken out By you and do I care Well you know I do You should have known I'd do anything for you

[repeat chorus]

Now it's all been said And you know it all Then you should have known I'd do anything for you For you

[repeat choorus]
