

# Blur, Ong Ong

I got on a boat on a hot sunny day  
To get out of this town  
But the tarmac was melting and the people seemed to sweat  
Stuck in the underground  
To the isle of Black ... rainclouds and wishing tree  
I wanna be with you  
On the slow boat that lands on misty sea  
I wanna be with you  
I pulled out the harbour with precession behind  
And I'm feeling the love of you  
So you better get to charge until I see you again  
You know just what to do  
If you're caught up in the gale junk boat sea  
I wanna be with you  
On a hill where the mountains are high trapeze  
I wanna be with you  
If you're a landlord, the social BCT  
I wanna be with you  
On an isle of rainclouds, rats and seas  
I will be there with you  
(La la la) I wanna be with you
