Blur, That's All I Wanna Do

I saw you today
You were too far away
It had hurt me to say
Hurt me to say
The words
The words I have to say

There ain't no sound
When you're not around
And it gets me down
Yeah it gets me down
My life feels so brown

I just want to be with you
That's all I wanna do
X2

Inside my brain
It's just not the same
Cos it started to rain
It's started to rain.

I just want to be with you
That's all I wanna do
X2
