

BOKKA, Secret Void

tell them to stay
and I'll run away
I'll get drunk and fall
to be me again
se through the louds
the sun's shining bright
you don't need me now
you don't need me anymore

don't look back
too much crowd
Lucifer is laughing hard
led into the secret void
shall we dance or catch the boat?
don't look back
too much crowd
Lucifer is laughing hard
led into the secret void
shall we dance or watch it boil?

tell them to stay
and I'll run away
I'll get drunk and pray
for it all ends well someday
my heart will implode
my hands will get cold
but you'll come around
you don't need anyone

don't look back
too much crowd
Lucifer is laughing hard
led into the secret void
shall we dance or catch the boat?
don't look back
too much crowd
Lucifer is laughing hard
led into the secret void
shall we dance or watch it boil?
