## Bon Jovi, Labor Of Love

Smoke stack blowing, there's a fire in the sky Fahrenheit rising up, higher than high Pressure's building up, sparks are gonna fly I know where this is going when I look into your eyes I know where this is going when I look into your eyes

Sweet sweat's rolling down the middle of your spine Bodies move together, perfect rhythm and time Baby say my name, I'll write yours in the sky Higher than a rocket in the 4th of July Higher than a rocket in the 4th of July

It's good, it's good to be alive

Its a full time job, the work's never done 24/7, it's a labor of love Everything I got, it's all about us Baby this ain't working, it's a labor of love Baby this ain't working, it's a labor of love

Only fools count treasure in silver and gold I don't want for nothing that these hands can hold If you need something done, put it on the list And if I need some sugar, I'll get it from your lips If I need some sugar, I'll get it from your lips

It's good, it's good to be alive

Its a full time job, the work's never done 24/7, it's a labor of love Everything I got, it's all about us Baby this ain't working, it's a labor of love Baby this ain't working, it's a labor of love

One taste of your lips, every night, every day I know every curve, but it's never the same If love is a fire, I'll go down in flames I wanna die in your arms, hearing you say my name /3x

Its a full time job, the work's never done 24/7, it's a labor of love Everything I got, it's all about us Baby this ain't working, it's a labor of love Baby this ain't working, it's a labor of love /2x
