

# Borgore, Big Bad

[Verse]

Sneak into your dreams because I know how much you love when you sleep  
Watching how the wolf just sits there patiently and counting his sheep

[Pre-Chorus]

Recognize the monster that you've made  
With words that came from your mouth  
Used to be my northern star  
But now you're just a boy from the south

[Chorus]

And you're bad but I like it bad  
The only type that's in my bed, you know it  
And I'm scared you're getting in my head  
I'm not the type to be misled, you know it  
And you're bad but I like it bad  
The only type that's in my bed, you know it  
And I'm scared you're getting in my head  
I'm not the type to be misled, you know it

[Outro]

You're a big bad, big bad  
You're a big bad, big bad wolf  
You're a big bad, big bad  
You're a big bad, big bad wolf
