

Bortnichanka, Горіли танки палали (Burning tanks)

Burning tanks were in flames
And armored personnel carriers were in flames
The Muscovites stood nearby
They were in complete stupor

And armored personnel carriers were in flames
The Muscovites stood nearby
They were in complete stupor

Burning bastards were in flames
Local people hurried over
They started to help
Adding oil into the fire

Local people hurried over
They started to help
Adding oil into the fire

The orcs began to flee
They ran through the woods in shock
Hunters were already standing there
And those pigdogs were shot on sight

They ran through the woods in shock
Hunters were already standing there
And those pigdogs were shot on sight

Huylo was sitting in a bunker
It listened to the news from Ukraine
Scratching its botox face
Why did it have to come to us

It listened to the news from Kyiv
Scratching its botox mug
Why did it have to come to us

We're warning all the Muscovites
We'll work you over to the bits
And we will burn you all to hell
Whatever horde dared to come

We'll work you over to the bits
And we will burn you all to hell
Whatever horde dared to come
