

Bracia, Love

What's that feeling in the air?
It seems to be just everywhere
Someone put the spell on me
But there's no one I can see
Ref.

Love, is got me waiting for the sunrise
Love, gets me high and makes me smile
Love, all the people feeling alright
Love, love, love...

Heaven knows what it's all about
It makes me wanna, scream and shout
Sounds like music in my head
Oh, I got the feeling I've never had, come on...
Hey man, did you hear what I said?
You gotta choose between the love and hat!
It's a moment that you gotta look at my face
My face!

Ref.

Love, is got me waiting for the sunrise
Love, gets me high and makes me smile
Love, all the people feeling alright
Love, love, love...

Love, is got me waiting for the sunrise
Love, gets me high and makes me smile
Love, all the people feeling alright
Love, love, love...

Love, gives you power to be stronger
Love, is a neverending smile
Love, you don't want it to be over
Love, love, love!
