

# Brandy, Never Say Never

Who would ever thought a guy  
Would want a girl like me  
Who would ever thought that I  
Would fall so easily  
Who would ever thought that we  
Would finally come to be  
I guess they don't know  
How much you mean to me  
Who would ever thought that they  
Would have some words to say  
We'll go on anyway  
It's alright - it's okay  
Take whatever comes our way  
Together we will stay  
I got three words to say  
Never say never

I can't believe they'd stop our happiness  
By trying to pull us down with such a mess  
Why can't they let us live just like the rest  
And keep us out of all this crazy madness  
Now when they talk I think it's just a shame  
That all they do is sit and think my name  
When all that i do mainly  
Sit and think about my baby and me

Now baby they can't believe that  
You and me are together  
That's why they should have never  
Never said never  
There were times when we thought that  
You and me could never be together  
That's why we should have never  
Never said never

Now there's a lot of talkin' goin' round  
About the way me and you are gettin' down  
What are they jealous are they hatin' me  
I guess they all have their own Ph.Ds  
I wish that they would just stop sweatin' me  
Stop tryin' to get the best of me  
No matter what they say baby  
We gotta move on cause we're gonna be happy

We didn't let the thoughts that we had  
We didn't let the words that they said  
Keep us from the love we now have  
Never say never  
Simply for me to see when  
Never would've been never if allowed  
Now that we are together  
Never say never
