I was on the outside (lookin in)
Wondering where do I (go from here)
I wanna show the world my (time is now)
I won't hold back
I'm comin out

Because tonight I'm so inspired
I feel the beat it takes me higher
To break free is my desire
This is the new me

I just wanna let it go, let it go, let it go
I'm about to let it go, let it go, let it go
Let, let it go
Let, let it go
Gonna lose your mind
Just let it go, let it go
I just wanna let it go, let it go, let it go
I'm about to let it go, let it go, let it go
Let, let it go
Let, let it go
Let, let it go

I took a bite of freedom (it taste so sweet)
Now that I know (my body's being released)
I can't go back to who I was before
I'm walking through this open door

Because tonight I'm so inspired
I feel the beat it takes me higher (higher)
To break free is my desire
This is the new me

I just wanna let it go, let it go, let it go
I'm about to let it go, let it go, let it go
Let, let it go
Let, let it go
Gonna lose your mind
Just let it go, let it go
I just wanna let it go, let it go, let it go
I'm about to let it go, let it go, let it go
Let, let it go
Let, let it go
Let, let it go

I know that,
I can't let,
All the fear inside take over me
Gotta take control of what's in front of me

1,2 can't nobody hold me
3,4 drop it to the floor
5,6 make your body twist
Let it go like this
Let it go like this

I just wanna let it go, let it go, let it go
I'm about to let it go, let it go, let it go
Let, let it go
Let, let it go
You can lose your mind
Just let it go, let it go
I just wanna let it go, let it go, let it go
I'm about to let it go, let it go, let it go
Let, let it go
Let, let it go
Let, let it go
