

Brokop Lisa, Before He Kissed Me

(Liz Hengber/Mark Irwin)

he was a little too shy, a little too nice
I told my friends he ain't my type,
But that was before he kissed me
I never felt my knees grow weak
And I wasn't losing any sleep
But that was before he kissed me
One little kiss and then, he rocked my world
I never knew that I was that kind of girl
No guy could make me lose my mind
I always kept my heart in line
But that was before he kissed me
And as for love and all that fluff
I never fell for all that stuff
But that was before he kissed me
One little kiss was like a tidal wave
I never dreamed I could be swept away
Before he kissed me
One little kiss and then, I fell in love
I can't believe he's got me so worked up
He was a little too shy, a little too nice
I told my friends he ain't my type
But that was before he kissed me
That was before he kissed me
Before he kissed me, before he kissed me
