

# Buck-O-Nine, Nite Lite

can't you see me smilin'  
that's me upon the silver screen  
can't you see me lyin'  
lyin' in my bed at night as i dream  
in the misty moonlight  
by the flickering firelight  
and everything is alright  
as long as i've got my nite lite

i get scared of the dark  
i lose my bite and i lose my bark  
i need a little beacon or spark  
something to light my way  
there's so many monsters to fight  
coming out of my closet  
when it's late at night  
and everything is alright  
just as long as i've got my nite lite
