Buck-O-Nine, Pigeon Hole Disease

Our systems are all go
No one here's getting pigeon holed
There's a free line to where we go
Where anything is possible
We're alright
Cause we do what we do and we do it every night
All right
Everyone's got opinions of what's right

But we do what is inside
and still the people will decide

But we're free from disease
We're free from your pigeonhole disease
We're gonna do as we please
Cause that's right

I can feel it
We're in the know
Since being jaded by the business world
We don't fit in
We don't want in
But we know we're never gonna break the chain
alright
In looking back, we'd do it all again
But in the future
We're not gonna be labeled victims
