

C-BooL, Don't Sleep Tonight

You always liked to watch when the sun goes down
You always lived living in a quiet town
You always liked to run when it was getting dark
And when you came back, you waited for my touch

Until now
When you feel
Insecure
But i am sure
Hold me now
Hold me tighter
Touch me more
And baby don't...

Don't sleep tonight
Even if the future looks black and white
Hold me tight
Don't turn around
Cause tomorrow dreams may be on your side
On your side
We can run togehter
Through the stormy weather
Nothing's gonna stop uus today
Forget all your sorrows
Think about tomorrow
There will be time to celebrate

Yu never got bored whne i was next to you
And when the world was lying you could find the truth
You always liked to walk the empty boulevard
And when you came back, you waited for my touch

Until now
When you feel
Insecure
But i am sure
Hold me now
Hold me tighter
Touch me more
And baby don't...

Don't sleep tonight
Even if the future looks black and white
Hold me tight
Don't turn around
Cause tomorrow dreams may be on your side
On your side
Don't sleep tonight
Tonight
Tonight
Tonight
Tonight

Don't sleep tonight
Even if the future looks black and white
Hold me tight
Don't turn around
Cause tomorrow dreams may be on your side
On your side

We can run together
Nothing's gonna stop us today
Forget all your sorrows
Think about tomorrow

There will be time to celebrate
