

# Camila Cabelo, Bad Things (Solo Version)

[Chorus]

Am I out of my head? Am I out of my mind?  
If you only knew the bad things I liked  
Don't think that I can explain it  
What can I say? It's complicated  
Don't matter what you say, don't matter what you do  
I only wanna do bad things to you  
So good that you can't explain it  
What can I say? It's complicated

[Verse 1]

Nothing is that bad if it feels good  
So you come back like I knew you would  
And we're both wild and the night's young  
And you're my drug, breathe you into my face numb  
Drop it down to that bass drum  
I got what you dream about  
Nails scratching my back tatt  
Eyes closed while you scream out  
And you keep me in with those hips  
While my teeth sink in those lips  
While your body's giving me life  
And you suffocate in my kiss

[Pre-Chorus]

I want you forever even when we're not together  
Scars on my body so I can take you wherever, like  
I want you forever even when we're not together  
Scars on my body so I can look at you whenever, yeah

[Chorus]

Am I out of my head? Am I out of my mind?  
If you only knew the bad things I liked  
Don't think that I can explain it  
What can I say? It's complicated  
Don't matter what you say, don't matter what you do  
I only wanna do bad things to you  
So good that you can't explain it  
What can I say? It's complicated

[Bridge]

The way we love is so unique  
And when we touch, I'm shivering  
And no one has to get it, just you and me  
Cause we're just living between the sheets

[Pre-Chorus]

I want you forever even when we're not together  
Scars on my body so I can take you wherever, like  
I want you forever even when we're not together  
Scars on my body so I can look at you whenever, yeah

[Chorus]

Am I out of my head? Am I out of my mind?  
If you only knew the bad things I liked  
Don't think that I can explain it  
What can I say? It's complicated  
Don't matter what you say, don't matter what you do  
I only wanna do bad things to you  
So good that you can't explain it  
What can I say? It's complicated
