

# Canibus, Can U Handle The Heights V05

Can U Handle The Heights?  
Can U manage the Light?  
Yeah!  
Can U Handle The Heights?  
Watch how I handle this mic

The last shall be first, the first shall be last (Mark 10:31)  
I blow nerve gas through chicken wire at your ass  
till you suffocate and fall, try to crawl  
The bathroom stall is a guillotine, nigga chop your head off  
Got a rip current flow, a maelstrom produces my undertow  
A slow process you must undergo  
To the unknown depths below, where sea creatures gloat in the glow  
And displace more water than tugboats  
I am Black Pegasus, I escort the Albatros  
Sagittarius archers serve as my ground force  
Synchronized movements in the field where we roll out  
I drop like phosphorous bomblets from snow clouds  
When the almighty army throw down, time slow down  
RPM begin revolution produced meltdowns  
So look alive, look lively, La Di motherfucking Da Di  
My posse on Broadway catching bodies
