

Canibus, Indibisible

(Canibus)

I transmit images over the distance
Using the inflation premise of ten to the minus thirty-two seconds
Back to the Canibus Era, my eponym is apparent
Those who hear my efforts got to give me the merit
Off lyrics alone I'm a legend
But I can't take credit, the English language was not my invention
It's the way I put it together
The incorrect English editor, can't nobody ever do it better
People forget but the history will remember
I pled guilty to the charge and accepted the sentence
Let the records show I resisted under the pressure
My short but precise endeavour to raise the measure

(Canibus)

Hip-hop forever
That's what I see when I look in the mirror
Regardless of whether I'm not a bestseller
I'm a first class spitter
The literal literature ripper
Painting pictures for intelligent listeners
From any and all dispositions
The fusion of what's written creates a vision called Canibusism
The intellectual division of science and religion
People waste their momentum trying to defend it
All I do is put it to ink, then put it to print
See what you think, maybe I should speak to a shrink
I could fix the way they look at the world
They read all these books in a barrel but they can't think for themselves
Self-contained, I'm all balls, belts and brains
Must be strong because no one ever helps Germaine

(Canibus)

Observe the whole world's pain
And tell me you ain't tired of praying
The Catholic faith will never be the same
You can be put in chains because you've got a Muslim name
Sent to Guantanamo Bay and tortured for days
Man, I'd rather buy some land and grow an orchard of grapes
Drink vegetable-juice and stay away from steaks and shakes and snakes
These rats in the corporate race is fakes
Nobody ever gives you what they didn't already take
Invest away? You'll be broke til you break
Man, you learned to pick a lock, you want to open the gate
I mimic haters like flight simulators in air bases
Recovered from an inverted spin and now I'm famous
Those who respond to Rip the Jacker with hate
Show poor taste and only exacerbate their fate
MicClub.net, get it right
Motherfucker, get it right and get a mic
