Canibus, Indisible

[Canibus]

I translate images over the distance

Usually inflation premiss to the minus thirty-two second

Back to the Canibus era

My eponym is apparent

Those who hear my efforts gotta give me the merit

Off lyrics alone I'm a legend

But I can't take credit, the English language was not my invention

It's the way I put it together

The incorrect English editor

Can't nobody ever do it better

People forget but the history will remember

I plead guilty to the charge and accepted the sentence

Let the records show I resisted under the pressure

My short and precise to raise the measure

[Hook]

[Canibus]

Hip-hop forever

That's what I see when I look in the mirror

Regardless of whether I'm not a bestseller

I'm a first class spitter

The literal literature ripper

Painting pictures for intelligent listeners

From any and all dispositions

The fusion of what's written creates a fission called Canibus-ism

The intellectual division of science and religion

People waste their momentum trying to defend it

All I do it put it to ink then put it to print

See what you think, maybe I should speak to a shrink

I could fix the way they look at the world

They read all these books in a barrel

But they can't think for themselves

Self-contained, I'm all balls, belts and brains

Muslim strong 'cause no one ever help Germaine

[Hook]

[Canibus]

Observe the whole world's pain

And tell me you ain't tired of brain

The catholic faith will never be the same

You could be put in chains 'cause you got a Muslim name

Sent to Guantanamo Bay and tortured for days

Man, I'd rather buy some land and grow and orchard of grapes

Drink vegetable juice and stay away from steaks and shakes and snakes

These rancid corporations is fake

Nobody ever gives you what they already didn't take

Invest the wake, you'll be broke till you break

Man you learn to pick a lock you wanna open a gate

I mimic hater like flight simulators in air bases

Recovered from an adverted spinner, now I'm famous

Those who respond to Rip the Jacker with hate

Show poor taste and only exacerbate their fate

MicClub.net, get it right motherfucker

Get it right, get a mic

[Hook]
