Celine Dion, In Some Small Way

There's a tree, standing there
In such an ordinary way
But as I look around
Everything keeps changing
There's a leaf on that tree
And it floats into a stream
Like everything it gets carried away
To the sea

And if we give a little of our love away

Maybe meet in the middle every night and day

If we could hear just a whisper of what the heart needs to say It could sure make a difference in some small, in some small way

In your heart lies the key That unlocks your destiny Look within and we'll find

Everything we're longing for

And if we give little of our love away

Maybe meet in the middle every night, everyday

If we could hear just a whisper of what the heart needs to say It could sure make a difference in some small, in some small way

Oh, may you cherish each moment you live

And know all the love that you give will go on and on and on

There's a sky, vast and blue And it lies deep inside of you Broath it in lot it out

Breath it in, let it out Breath it in again

And if we give a little of our love away

Maybe meet in the middle every night, everyday

If we could hear just a whisper of what the hearts trying to say It could sure make a difference in some small, in some small way In some small way
