

Central Cee, Air Bnb

(You are now listening to Young Chencs)
(Roddy Run it Up)

Yo
I don't know why these guys keep lying
You can lock the mandem all you want
But the trap won't stop 'cause the cats keep buying
I got links with the Chinese triad
I call YJ if a pack needs flying
Tired, man I need sleep, I'm tired
Sat in the trap, I don't feel inspired, uh

Swear I need a change of scenery
Somewhere with a bit more greenery
Suns out but it still looks gloomy
I'll show you a jungle made out of concrete
Would've thought that you saw an apocalypse
All you're seeing is zombies
Stood in the club with a mask
I'm not too sure why the gyal dem on me
I'm not too sure why the gyal dem want me

Yeah, they love man now
But, I wonder how long for
I'm not a believer in reincarnation
But sometimes I feel like I been here before, uh
Great minds thinking alike
Me and my guys got similar thoughts
Got a bad one coming from Brooklyn
Asking would I ever live in New York

Brand new crib and I'm putting my plaques up
Back then, it was five in a two bed flat
Me and bros in the bedroom cramped up
These hoes always wanna act up
Stay focussed, we don't let it distract us
Nick gonna let a man stay in his crib
He smokes so I pay him in crack dust

But it's different now, I got a rap buzz
This bitch used me as a rebound
Fuck it, I'll help her get over her heartbreak
Giving me blows whilst driving
I had to park up and put up the hand break
Some man get nicked and sing
You can read all about it, Emily Sandé
The UK don't know what I'm doing
They say Cench ain't got a regular fanbase

Airbnb, turn that to a bando (Bando)
This ain't no regular trap (Trap)
10 M for the hard drive plugged in the laptop
This ain't no regular Mac
(Thank) Thank God every day for our freedom
Once time goes, you ain't getting that back
Driver knows the protocol
If you see blue lights, gotta step on the gas

Airbnb, turn that to a bando (Bando)
This ain't no regular trap (Trap)
10 M for the hard drive plugged in the laptop
This ain't no regular Mac
(Thank) Thank God every day for our freedom
Once time goes, you ain't getting that back

Driver knows the protocol
If you see blue lights, gotta step on the gas

Airbnb, turn that to a bando
10 M for the hard drive plugged in the laptop
This ain't no regular Mac
