

# Central Cee, Next Up - S2-E39, Pt. 1

Magic, I get the pack and make it vanish  
I got a habit  
Everything I want I've got to have it  
Splash it  
Spending all this money on my fashion  
Thank God, he made it happen (Happen)  
My life a movie but it's real, I'm not acting  
Oh no, I don't  
I don't have no time for them  
I love my bros, man I ride for them

I wonder it could hurt me  
All the times I released out  
This trap shit ain't a game  
It's a fucking lifestyle  
I'm waking them up, money: My alarm  
I'm picking it up, and getting it gone  
I don't want drama, but I woke up this morning  
And my bro told me it's on  
I should have went Uni  
I'm in Oxford, bro's in Cambridge  
Already sure  
I don't be faking  
I don't like birthdays  
Dont celebrate them  
Man got a brain  
Her mouth's a strainer  
Im in her mouth  
My dick a retainer  
Bust on her tongue  
Done in the chamber  
When I'm done I ain't returning the favour  
How you endorsing fake shit  
Tryna tell me it's showbiz  
Two tones on the microphone  
Everything I say is authentic  
If I said it then I meant it  
Even in school I was selling shit  
Got your girl on the phone she belling it  
Im recording a song Im airing it  
I wonder it could hurt me  
All the times I released out  
This trap shit ain't a game  
It's a fucking lifestyle
