

# Central Cee, You've Been

Thought you would keep it real with me, yeah  
Thought that you was real from far  
Thought u would do a drill with me, yeah  
Treated you like one of my dawgs  
Dedicated time and trust  
Grind and love  
You were my shining star, don't find it hard cause no one above  
You was badder than the baddest, aye  
Running round no manners, nah  
Touch her then I'm clapping  
Cute lil face and the back all clapping  
But I, guess I gotta let you go  
But before I'll gotta let you know  
You were my only one not 1.5 or decimal

Yeah I know, feelings show  
People grow, It's true  
Lying straight, to my face  
Losing faith, In you  
I guess that's your loss  
Fuck that it's mine too  
You fucked with my trust  
Messed with my mind too

Cheatin and tellin me lies  
You've been messing with them boys outside  
I know I ain't perfect baby, girl I try  
I always thought that you would be the one to ride  
You've been cheatin and tellin me lies  
You've been messing with them boys outside  
I know I ain't perfect baby, girl I try  
I always thought that you would be the one to ride

Yeah, you were the reason I was really out there trapping  
You was moving like wasn't but I was and I was active  
Found out you were moving like a hoe I had to panic  
But you're outside acting like nothing even happened, like you  
Done me dirty, how'd your ex manage  
Made me fall, made my love expand  
Bando, yeah I'm tryna bands  
10 10 you a sweet, certy savage, I'm like  
Missing, old days now we're distant, mystic  
Never been materialistic  
Hear shit, talk shit when you twist It  
Caught you, red hand, same colour as your lipstick  
You were the one I would be calling every day like  
First thing I think about when I wake up in the day time  
Gotta keep a look out cah these pussys wanna take mine  
Timing is money I been out there tryna save time

Yeah I know, feelings show  
People grow, It's true  
Lying straight, to my face  
Losing faith, In you  
I guess that's your loss  
Fuck that it's mine too  
You fucked with my trust  
Messed with my mind too

Cheatin and tellin me lies  
You've been messing with them boys outside  
I know I ain't perfect baby, girl I try  
I always thought that you would be the one to ride  
You've been cheatin and tellin me lies

You've been messing with them boys outside  
I know I ain't perfect baby, girl I try  
I always thought that you would be the one to ride
