

Charli XCX, I Finally Understand

baby, lately
baby

the walls are all gone
did we melt them down
liquid in my hands?>
secret in my mouth
footage on my phone
did it whit your tongue
and now we're sticking close
and I understand

baby , I love you bad
cause lately I finally understand
that maybe this feeling that I've found
might kill me, put me in the ground

I finally understand, finally understand
my therapists said I hate myself really bad
you tell me it's fine
let me cry and hug it out

baby , I love you bad
cause lately I finally understand
that maybe this feeling that I've found
might kill me, put me in the ground

baby, lately
baby
