

# Cheat Codes, All Things \$ Can Do (feat. Travis B

Some days I'm at the bottom of the Ocean  
I'm gettin' too deep and I don't know if  
It gets any better when I see the light  
The only thing that I want is a distraction  
I just can't explain the way I'm actin'  
I know it'll hit me when it all slows down

Scared to be all alone  
Got no one else here  
I gotta be lonely for the night  
I'm stuck in my mind  
But I want outside  
So I'ma get it right like

All the hthings the money can do  
I was sad till i bought something new  
I don't even care if i am wsting my time  
I don't even care like

I don't take a break  
I am always crashing  
I am scared of the things that wouldn't happen  
Ije waht id the Sun come shootinf out the sky

Scared to be all alone  
Got no one else here  
I gotta be lonely for the night  
I'm stuck in my mind  
But I want outside  
So I'ma get it right like

All the hthings the money can do  
I was sad till i bought something new  
I don't even care if i am wsting my time  
I don't even care like
