

# Chemia, Fire

She's the eerie kind  
My solution  
Why she playing with my mind, yeah?

Girl, you don't have to lie  
Even try to be shy  
There's that look I see in your eyes

Come and see us  
Falling, higher, dying  
Trying to restart it  
Fire, lighting inside  
Come again  
Higher, dying  
Trying to restart it  
Fire lighting inside

Love that created me  
By your heart beats  
It's one world ashes of the past

Come and see us  
Falling, higher, dying  
Trying to restart it  
Fire, lighting inside  
Come again  
Higher, dying  
Trying to restart it  
Fire, lighting inside
