

# Chief Keef, For Right Now

I just wanna fuck for right now  
I can't show you love, not right now  
I'ma flame this bud up right now  
Push come to shove, not right now  
I ain't tryna talk for right now  
I'm just tryna ball for right now  
Stay away from the law for right now  
You just got to kill them with kindness

For right now I can use me some breakfast  
Came a long way from 8 section  
Got a lot of bottles in the section  
And a lot of diamonds in the necklace  
Throwing cash up like "bitch catch this"  
Bitches so sweet, I can use a dentist  
Kick the cash door down of the hinges  
For right now I can use me a pen  
For right now girl I'm in my air and in my air  
I am not a superhero, I can not save  
That shit that he flamed up, it smell like sage  
She let me smash hit her with that one two three, Johnny Cage  
Bang bang

I just wanna fuck for right now  
I can't show you love, not right now  
I'ma flame this bud up right now  
Push come to shove, not right now  
I ain't tryna talk for right now  
I'm just tryna ball for right now  
Stay away from the law for right now  
You just got to kill them with kindness
