

# Chimaira, Gag

After years of endless torture  
You try to come back  
Likeness of an unwanted child, grow  
Simplified case of defamation  
You left her bleeding  
Thrown out the window  
I tried to compete to be the good one  
I'll never understand (x3)  
What the f\*\*k did we ever do  
To make you hate  
Remaining scars of an unwanted child, lost  
Justified, inebriate  
Left me bleeding  
Thrown out the window  
I tried to compete to be the good one  
I'll never understand (x3)  
20 years of mind rape brings forth my hate  
My hate derived from you, you mother f\*\*ker
