

Christina Aguilera, Listen Up

Were the bratty angels and we're here to say "listen up" listen up, listen up exc.. (x3)
we see a blonde gurl smiling at her boyfriend
people think shes special but she thinks shes not
we see a hip gurl really likes gymnastix
people think shes skinny but she thinks shes not
~chorus~

But we tell them "listen up"
this is what we've gotta do
When you look in to the mirror take a good look at you
and see someone not just special not just cute
but someone really amazing
I see a cute gurl really into make-up
people think she's pretty but she thinks shes not
I see a tomboy people think shes sporty
but she thinks shes not
~chorus~
