

# Christina Aguilera, Make Over

I can't believe what you did to me  
Down on my knees and I need to break free  
All these years, you violated me  
I don't know why I can't feel inside  
Trying to hide, can't make it all right  
It's overkill, now I'm ready to fight (ready to fight)  
I don't need nobody trying to make me over (make me over)  
I just wanna live simple and free  
I just wanna get away  
Save it, all your bullshit, for another day  
Feeling confined, like I'm being forced in  
My vision's blurry and I'm lost in regrets  
It's overload, and I'm out of control (out of control)  
So sick and tired of feeling so misused (feeling so misused)  
Taking me down with all your mental abuse  
I must say, gotta get you out of my head  
Everybody's always trying to look me over (look me over)  
I just wanna live simple and free  
I just wanna get away  
Save it, all your bullshit, for another day  
I'm the only one who can rescue me from me  
Leaving the house another quarter to five  
Slipped on my boots and I'm ready to ride  
And I feel so high, I feel so alive  
Let down my hair, feel the wind on my skin (wind on my skin)  
Crossing the water where my new life begins  
And I close my eyes and take it all in  
I don't need nobody trying to make me over (make me over)  
I just wanna live simple and free  
I just wanna get away  
Save it, all your bullshit, for another day  
I'm the only one who can rescue me from me  
I just wanna get away  
Save it, all your bullshit, for another day  
I'm the only one who can rescue me from me  
You wanna bring me down  
You wanna bring me down  
You wanna bring me down  
You wanna bring me down
