

# Christina Aguilera, We're A Miracle

Here we are, safe at last  
We can breath a sigh, seems the storm has passed  
Through it all, no one knew,  
That all the tears in heaven, would bring me back to you  
No one I know, imagined we would make it  
But it only matters that we both believe

[Chorus:]

You and me, we're a miracle; meant to be  
And nothing can change it  
Mountains move  
And oceans part  
When they are standing in our way  
You and me, we're a mircale;  
Angels stand watching over  
And heaven shines upon us, everyday

Everytime, I felt near defeat  
You were there for me oh  
By my side completely  
You give me strength ohh..  
you set me free... hey yeah yeah  
Its just because of you ohh..  
I'm all that i can be ohh..  
When im with you, the world is ours to reach for  
Together there is nothing we can't do. ooh ooh..

[Chorus]

[Bridge:]

The chance was so unlikely  
That we would ever win  
Two stars among the heavens  
Destiny brought you to me

[Chorus]

You and me, We're a miracle (miracle)  
You and me, We're a miracle (miracle)  
Miracle
