

Clifford T. Ward, Who Cares

Who cares if you live, who cares if you die

But you know how I love you

Who cares if you give, who cares if you try

But you know how you love to.

Don't give up - it's not the thing to do

Keep on tryin' I'm right beside you

There's a lot less to it than you estimate

Just put on your best - 'n' leave it to fate.

Who cares if you live, who cares if you die

But you know how I love you

Who cares if you give, who cares if you try

But you know how you love to.

Look at me, I'm the optimist

Times I've fallen and the times I've missed

There's a lot less to it than meets the eye

Just wind in the trees, and stars in the sky.

Don't care if you live, don't care if you die

But you know how I love you

Don't care if you give, don't care if you try

But you know how you love to.

INSTRUMENTAL

There's a lot less to it than you estimate

Just slip off the catch - pull on the gate.

Who cares if you live, who cares if you die

But you know how I love you

Who cares if you give, who cares if you try
But you know how you love to.

Who cares if you live, who cares if you die
But you know how I love you
Who cares if you give, who cares if you try
But you know how you love to.

(Repeat and fade).
