

Cochise, White Garden

See you down again
You're walking in my garden
So much love around
Black cats by your side
You are my secret lion
Love me like a child
Love
Love me girl

See you down the hill
You're walking with my flowers
So much blood around
Take me to your place
My garden is on fire
Love me like a spy

Love
In the white garden
Love

Love
I need your love
Your love
Like an animal
Love
I need your love
My love
Like an animal

Love
In the white garden
Love
