## Coldplay, Hypnotised

Been rusting in tehe ruble Running to a faint Need a brand new coat of pain

I found myself in trouble Thinking about what ain;t Never gonna be a saint

## Saying

Float like and eagle Fall like the rain Pouring to put ut the pain Again and again

Now I'm hyp, hypnotized I trip when I look in your eyes Now I'm hyp, hypnotized Yes, I slip and mesmerized

It's easy to be lethal I'm learning from the news It's a quidebook for the blues Saying it's the very same steeple People want to choose They just see it from different views

And threading the needle Fixing my flame Now, I'm moved to exclaim Again and again

Now I'm hyp, hypnotized I trip when I look in your eyes Now I'm hyp, hypnotized Yes, I slip and mesmerized
