

Corey Taylor, Black Eyes Blue

I stood alone in Trafalgar Squer
I looked around i didn't see you there
Before they closed the roads i made it down to Hyde
I just need you now
I need you by my side

I know that there's no other Way
I know that there is nothing more that i can say
Make my black eyes blue
I fall for you

Behind the trees
In front of golden Gate
I was never beholden to the hands of fate
Consternation in the middle of my chest
You know me better than the ones who know me the best

I know that there's no other Way
I know that there is nothing more that i can say
Make my black eyes blue
I fall for you
