

# Corinne Bailey Rae, Been To The Moon

When we first collide  
Time wasn't right  
I show you the sign  
You disappearing into the shade  
Now you've back again  
Tell me  
You do  
You do!

Don't you recognize a fellow ...  
When we've been before  
Moon was elliptical  
When you've moved toward me  
Might me lose my cool  
And it's cruel

I've been to the Moon  
Don't tempt me  
I am where you are  
God, help me  
...
