

# Danny L Harle, Super Natural (ft. Carly Rae Jepsen)

You can show me your favorite streets late at night  
Or lay in bed, fall asleep side by side  
Cause when I'm with you anywhere  
Baby, it doesn't matter  
I, I just don't care what we do  
Baby, it's so bananas  
How I feel?  
So unreal

You gotta believe in me  
This isn't normal, not at all  
It's just like we don't try, we just fit, you and I  
We're supernatural  
This is easy love  
Every day euphoria  
It's just like, we don't try, we just fit, you and I  
We're supernatural

You, you got me all figured out in every way  
You, you read my thoughts of what I want before I say  
And it's crazy how these little things  
Baby, they stop me killing  
We could carry on if you want

Baby, just keep believing with you in me  
This isn't normal, not at all  
It's just like we don't try, we just fit, you and I  
We're supernatural  
This is easy love  
Every day, euphoria  
It's just like, we don't try, we just fit, you and I  
We're supernatural

How I feel, so unreal  
Know it's true - me and you

You gotta believe in me  
This isn't normal, not at all  
It's just like we don't try, we just fit, you and I  
We're supernatural  
This is easy love  
Every day euphoria  
It's just like, we don't try, we just fit, you and I  
We're supernatural
