

Daughtry, Torches

All the hate and lies around us
Like an ember in the brush
And can you picture a world without it?
And turn it all to ash and dust

We keep waiting on a day that never comes and never comes
Too late is not a thing and we just gotta be stronger
Gotta be stronger

Love is like a torch that's burning bright
Carry it on, carry it on and you'll see
Fire will shine a light on the darkest side
Carry it on, carry it on
Cause we can never right all the wrongs
So leave the past well enough alone
And say:

Take a look at what we started!
Spreading kindness all around
Don't you know it's so contagious? Yeah
Take a hit and pass it down

We keep waiting on a day that never comes and never comes
Too late is not a thing and we just gotta be strong

Love is like a torch that's burning bright
Carry it on, carry it on and you'll see
Fire will shine a light on the darkest side
Carry it on, carry it on
Cause we can never right all the wrongs
So leave the past well enough alone
Just say

Just say:
It's gonna be alright
It's gonna be alright

Love is like a torch that's burning bright
Carry it on, carry it on and you'll see
Fire will shine a light on the darkest side
Carry it on, carry it on and say

It's gonna be alright
It's gonna be alright
I said: It's gonna be alright
It's gonna be alright
