

Dee Dee, Forever

I'm all alone in bed
I can't sleep I'm feeling blue.
I try to close my eyes
But all I'm thinking of is you
Baby only you

I cry my eyes out baby,
wondering what I have to do
I look inside my heart
I know fore shoure this love is true

Day by day, heart to heart
I hope that we will ever be, together
Will it be, me and you

I dream that our love will last forever
Hold me tight, in your arms
I know we have this strength to stay togher
Walk with me, hand in hand
I promise to be there forever, forever
