

Demi Lovato, Butterfly

Used to dread the month of June
Cause it reminded me of you
And always came around too soon
Not anymore
A part of me I had to find
Cause it was killin' me inside
You were always like a bye
I wasn't ready for

I figured this was something I deal with my whole life
Stop pushin' my past to the side
This is what it's posed to feel like
Now I look up and I see you in the sky

Butterfly, Butterfly, Butterfly
Butterfly, Butterfly, Butterfly
Butterfly, Butterfly, Butterfly
