

Diesel Boy, Piosenka

Its three years gone
still I rattle on
This crazy world is moving fast
Here I am
guitar in hand
I wonder how long this will last
I wish you could see
what this means to me
It means more than I could ever say
So I close my eyes and I think real hard
Back to the days spent on the school yard
and how many times I wished that this were true
that this were true
it makes me smile
To the famous three
who never believed
I'm singing this song to you
look at me now
I'm so proud to be
right here, right now
a part of this
