

Diesel Boy, Voyeuotica

I sneak around to the backdoor
So I can watch her
I love to watch her
And some nights I get lucky
She gets undressed
And bares her breasts
My heart races out of time
Through her window she's all mine
And I don't even know her goddamn name
But I'm a voyeur just the same
Beneath the bathroom window
I stand in flowers
To watch her shower
Sometimes she'll dance for me
A private show
A standing O
Some nights I just stand there in awe
As she removes her lacy bra
Well maybe I'm a perverted freak
But you can't beat free pornography
