

# Diplo, Get It Right (Feat. MØ)

i am walking down that road  
where did all the flowers go?  
they say we're supposed to grow  
learning from the highs and lows

all eyes lying on me  
begging me to play the role  
cause I'm gonna get it right  
I'm gonna get it right

they can try to hold me down but I am  
I'm gonna get it right  
when the sky is filled with smoke and fire  
I'm gonna get it right

all I want is something better in the purple light  
they can try to hold down but I am  
I'm gonna get it right

all my dreams are running wild  
I am gonna chase them down  
they said you gonna lose your mind  
hurry up you're out oof time

I say I will rise ans shine  
even in the colest night  
casue I;m gonna get it right  
I'm gonna get it right

they can try to hold me down but I am  
I'm gonna get it right  
when the sky is filled with smoke and fire  
I'm gonna get it right

all I want is something better in the purple light  
they can try to hold down but I am  
I'm gonna get it right

I'm gonna get it right  
I'm gonna get it right
