

# DJ Antoine, Holiday (feat. Akon)

Akon, Antoine

When you move I'm in another place  
Want to get into your outer space  
You're like the treble, I'm the bass,  
You never leave my mind without a trace

When I take you to paradise  
When I'm looking in your eyes  
All I'm seeing is clear blue skies,  
I just wanna spend every day  
With your love in my heart all day  
Can't believe this is my real life!

Underneath the sole,  
We ain't in no hurry  
You make every day a holiday  
We can take it slowly  
Be my one and only  
Let's make every day a holiday  
A holiday! A holiday!

Girl you wear that sunshine when it rains  
And you're taking all my stress away,  
How you put a smile upon my face when I'm with you  
No return trip, just one way, girl

When I take you to paradise  
When I'm looking in your eyes  
All I'm seeing is clear blue skies,  
I just wanna spend every day  
With your love in my heart all day  
Can't believe this is my real life!

Underneath the sole,  
We ain't in no hurry  
You make every day a holiday  
We can take it slowly  
Be my one and only  
Let's make every day a holiday  
A holiday! A holiday!
