

# Dj Sequence, Take me to the Future (feat. Justyn

when i saw you  
i knew you will be mine  
no matter where  
i have with you the best time  
every day i share my life with you  
you know it's true  
what can i do

you took my heart  
and it happened so fast  
all i want is us to make it last  
you may ask my waht i need  
i just wanted something true  
i found it in you

take me to the future  
i wanna hold you close  
i hole you'll be somebody  
who never let me go

take me to the future  
make me feel alright  
if you love is true  
i'll be always by your side  
by your side

when you're near i know  
i;ve made the best choice  
when you speak  
i hear the warmest voice  
i know the world is gonna change  
but pleas stay the same  
my heart has your name

take me to the future  
i wanna hold you close  
i hole you'll be somebody  
who never let me go

take me to the future  
make me feel alright  
if you love is true  
i'll be always by your side  
by your side
