

# DNCE, Body Moves

Side to side  
Walking home  
Standing alone  
Getting curious  
It's On your mind.  
Change of minds  
What's on your mind?  
Cause what's on mine's a dirty mind  
Why so serious?

The stars above are a light away  
Just take my hand and hear the words I say  
And when the morning comes, I'll always stay  
You gotta know, you gotta know that I'm feeling this

Coming home with me, we'll rock them body moves  
Me and you  
Body moves  
You're coming home with me, oh baby, let it loose  
Me and you, just a little bit  
Body moves, just a little bit  
I don't need it, but you know how bad I want it  
And your touch has got me haunted, but I like it  
Coming home with me, we'll rock them body moves  
Me and you, just a little bit  
Body moves, just a little bit
