

DNCE, TV In The Morning

and all of the heavy hearts
are broke in their backs
and all of the die-hard valentines
are calling me back

you can find me in the restaurant
you can find me at the pool
you can find me in the mistletoe
playing it cool
singing
just unplug with me
what's the rush
I wanna know
just unplug with me

I don't wanna love you
I don't want your hand
but we can watch TV in the morning
drinking coffee in my bed
I don't wanna love you
I don't wanna love you
I don't have no plans, no
and you can stay over if you want to stay over if you can

and all of the cold-n beds
are tired as news
and all of the valves
remind me of you

they kinda find me in the counseling
they kinda find me in the school
you can find me in the mistletoe
playing it cool
singing
just unplug with me
what's the rush
I wanna know
just unplug with me

I don't wanna love you
I don't want your hand
but we can watch TV in the morning
drinking coffee in my bed
I don't wanna love you
I don't wanna love you
I don't have no plans, no

stay over if you want to
stay over if you can
stay over if you want to
stay over if you can
